

FREE-STANDING WASH BASIN

The free-standing washbasin is a complete station that combines all the functions of a cleaning station. It is a robust and ergonomic equipment well suited for recurring trips and frequent handling.

Ergonomic

Easy to move thanks to the 2 fixed wheels Ø 125 mm and the arched handle over the top. The wash basin has 2 x 13 litre containers, one for clean water, the other for waste water. When the unit needs to be moved these containers are held in place by a (movable) bar. A space is provided underneath the bowl to store 2 spare batteries.

Robust

Designed for use in difficult conditions, the free-standing wash basin is made of stainless steel. It has an apron round 3 sides.

Stainless steel construction. 2 fixed wheels and handle for easy moving. Basin 345 x 245 mm, depth 115 mm. Foot control. 2 cans of 13 litres (one for clear water, one for waste water). Supplied with manual soap dispenser 500 ml, paper towel dispenser (one towel roll Ø 120 mm, length 208 mm, supplied), hook-on dustbin. L 415 x l 345 x h 1200 mm

Ref : 806 517

Available in heated version

Self-contained hand wash-basin with built-in-water heater integrated electric water heater for instant hot water production. Selection button for continuous adjustment of cold water to hot water and vice versa (up to 45°C). Supplied with 230 V 16 amp connection. Power rating 3.7 kW. Operational stop facility to protect the water heater when there is no water in the jerry-can.

Ref : 806 519

Perfectly mobile

The large, rounded handle provides safe and comfortable handling. The two large, robust, fixed wheels, 125 mm in diameter, provide excellent stability and easy movement.
