ORIGINE
FRANCE®
GARANTIE

Wide choice : manual, electronic soap dispenser, soap pump.

Easier installation : thanks to the fixing strip at the rear of the splash-back.

Ergonomic : tap with infra detection cell made in France.

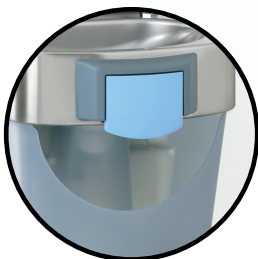

Sustainable development : Reduced water consumption thanks to immediate stop of flow on removal of hands.

Eye-catching : one-piece. The basin, lip and splash-back assembly is made in one piece. Streamlined design.

Hygienic : oversize basin (350x275 mm, depth 80 mm).

Also available with knee-operated tap.

Complete : comes as standard with nail brush, bin, electronic tap, connection hoses, sink pipe trap and wall bracket.

Insert bin : This recess allows straightforward installation of the wash basin, regardless of the room taken up by the water inlet and evacuation pipe.
