

A large range:

Tournus offers 14 standard models of trolley for trays measuring 350 x 270 mm to 530 x 325 mm.

Low trolleys:

- 12-tray trolley, 2x6 levels.
- 12-tray trolley, 2x6 levels, with top tray.
- 18-tray trolley, 3x6 levels, with top tray.

Tall trolleys

- 12-tray trolley, 1x12 levels, insertion widthways, one stack.
- 24-tray trolley, 2x12 levels, insertion widthways, two stacks.
- 24-tray trolley, 2x12 levels, insertion lengthways, two stacks.

Trolley with 2x12 levels, insertion widthways with two stacks (side by side), with side panels.

Trolley with 2x12 levels, insertion lengthways with two stacks (back to back)

Ergonomics:

The H-shaped design of the trolleys (tall models and low models without top tray) means they are semi-stackable, thus saving space during transport and storage.

The low trolleys are ideally suited to the size of children. The upper tray, with its raised edge on all 4 sides, avoids items placed on top of the trolleys falling off, and retains any liquids.

Trolleys with side panels: the laminated panels fixed with clips are easy to remove for thorough cleaning. The panels can also be installed on trolleys that did not have any originally.

Anti-fall clips for trays on each tier.

Sturdiness:

Thanks to the uprights made of 25 x 25 mm tube and the 4.8 mm diameter stainless steel wires, the trolleys are very sturdy and corrosion-resistant.

They are built on an automatic welding bench. This product process ensures perfectly even welds.

The trolleys come with 4 stainless steel swivel wheels with polyamide cover and stainless steel axle and ball. The ball bearing guarantees the rolling quality and optimum resistance with time. Two wheels are braked so that the trolleys can be immobilised. The wheel treads and protective bumpers are of the non-marking type.

Trolley with 2x6 levels, insertion widthways with two stacks (side by side), with upper tray.

Colours:

Beige

Personalisation is done by bonding a resistive film (cleaning resistant). We offer a choice of 20 colours covering cladding (swatch on request).

STANDARD COLOURS TO MATCH THE CLADDING OF DISPENSING UNITS
