

The Tournus assets

ROLL'FRESH

Easy access to the adjustments :
possibility of deferred starting, alarm for an abnormal rise in temperature, alert for maintenance of the refrigerating unit.

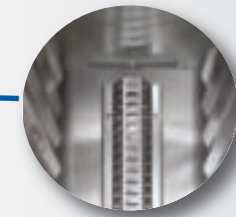

Easy to load :
door opening through 270°.

2 side handles for guiding and a back bar to make shifting easier.

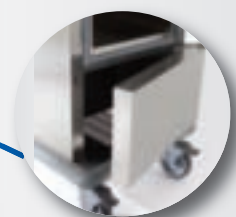

Practical :
bracket for temperature recorder.

Hygiene:
press-drawn sliders. Built-in evaporator located in the upper part.

Ergonomics:
Generously dimensioned handle with an exclusive design.

Maintenance :
refrigerating unit located in the lower part. Lowering of the centre of gravity, removable sides : easy maintenance and cleaning.

Easy handling:
4 swivel wheels including 2 with brakes.

Non-marking shockproof surround :
protection of the cabinet and its surroundings.

Refrigerating gas R134a :
minimises the emission of greenhouse effect gases.
