

The Tournus assets

Comfort :
sound-proofed trays

Safe transport :
press-drawn trays 10 mm deep for optimum holding of containers.

Sturdiness :
welded assembly over the whole tray height with flattened edges in lower part.

Clearing trolleys

Sturdiness:
stainless steel structure. Bent square (25 x 25) tube and bent sheet metal with flattened edges.

Ergonomical :
platform height: 460 mm (200 plates) and 485 mm on trolley for 400 plates.

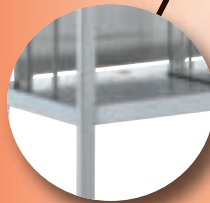

Plate trolleys with raised platform

Easy use :
no tools required to adjust plate diameter (up to 320 mm).

Easy cleaning :
removable serving elements. Insides with curved edges and evacuation.

Quick heating time and homogeneity of the temperature.

Wire spiral and neutral socket.

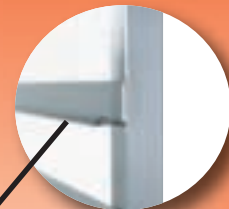

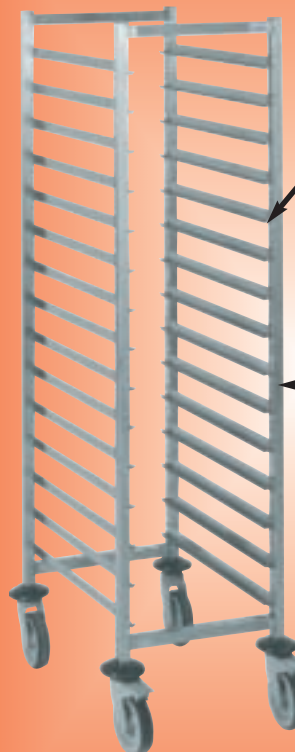

Constant level plate dispenser trolleys

Strength :
load : 250 kg per trolley.

Sturdiness :
continuous welded sliders over the whole height with no added metal.

Optimum accessibility :
longitudinal reinforcement bar not necessary.

Swivel wheels Ø 125 mm with non-marking tyre.

GN slide bars trolleys
